

## COMPANY FACT SHEET

**ONASSET INTELLIGENCE, INC** provides solutions to track and monitor critical assets – anything, anytime, anywhere. Delivering the location, condition and security information of high-value shipments, freight and equipment is what OnAsset does best. Since 2005, OnAsset has continuously been innovating and carving a path by listening to its customers and understanding their needs for capable, compliant, easy-to-use and cost-effective supply chain visibility solutions.

### ABOUT

What distinguishes OnAsset from competitors is its dedication to innovation. With little investment in marketing, the company has grown on the strength of its products and leadership.

- Adam Crossno, Founder & CEO
- Started in 2005, with exclusive focus on supply chain visibility since day one
- Approved by a majority of the world's airlines
- 17 asset tracking and management patents
- Products used in 160+ countries

### PRODUCTS

OnAsset's technologies are built to withstand the rigors of shipping, with the power to track shipments across the globe through all modes of transportation and in the warehouse. Standards-based technologies make OnAsset products compatible, flexible and scalable.
