SENTINEL LOGGER

Rugged, reusable and wireless, the data logger independently logs any sensor data, and automatically offloads data to a SENTRY FlightSafe or mobile device within range – no manual process required. The Logger can store over 16,000 data points with internal memory and a 1-year battery life.

SENTINEL 100 SPECIFICATIONS

Dimensions	64mm x 50mm x 13mm
Weight	51 grams
Sensors	Temperature -45°C to 85°C, Humidity, Shock, Light
Power & Battery Specs	Uses Lithium Thionyl Chloride ER 10450 battery which complies with United Nations (UN) Transportation Regulations, 'Recommendations on the transport of dangerous goods - manual of tests and criteria', UN ST/SG/AC.10/11; and IEC62133, Directive 2006/66/EC Lithium Thionyl Chloride batteries contained in Equipment UN3091 Pl970 Section II can be shipped by air in accordance with International Civil Aviation Organization (ICAO), Section II or International Air Transport Association (IATA), Section II Pl 970 (Batteries, contained in equipment). Unrestricted, no label or declaration required.
COMPLIANCE	FCC / CE / CSA / MET / EN / IC / Bluetooth® / DO-160G Section 21 Categories H, M and P
